LSI POOLS

SERVICE, STAFFING &
MANAGEMENT

**COMMERCIAL
SERVICES**

WHY CHOOSE LSI?

LSI Pools has consistently exceeded our commercial client's expectations due to our ability to formulate and construct the perfect service for you. Since we are able to train our lifeguards in-house as American Red Cross Lifeguards and Pool Operators, we are able to provide clients with the most knowledgeable and skillful staff available.

FACILITY STAFFING

Depending on one's facility, the needs to properly operate efficiently may be completely different from other facilities. LSI Pools is known for our custom management and staffing plans. Depending on the facility and its physical characteristics, additional certifications for lifeguards may be necessary. LSI Pools hires and trains in house, so we can ensure our clients receive the most proficient staff around. Our staff is trained to the highest standards in aquatics including the American Red Cross and the National Swimming Pool Foundation. Our staff can be trained in:

- Lifeguarding
 - Waterfront
 - Aquatic Attractions
 - Shallow water
 - Standard Lifeguarding
- Pool Operations
- Water Safety Instructor

PRE-& POST SEASON CARE

Spring Start Up

- Remove pool cover and store on the owner's property
- Place pool circulation, filtration and heater in use, in "as is" condition
- Remove winterization plugs and install owner's fittings
- Reassemble and install pool deck equipment, i.e. Later, diving board, etc.
- Add an initial shock and sanitizer to pool water (chemicals included)
- Mesh covered pools will be vacuumed on day of opening

Winterize

- Lower water level to proper winterization level
- Drain and winterize circulation, filtration and heating system
- Remove pool fittings and void all plumbing of water with compressed air and plug
- Add appropriate winter algaecides and stain inhibitor
- Disassemble and store all pool deck equipment on Owner's property
- Install cover

MAINTENANCE

Maintenance and chemical purchasing for a pool can be difficult. The wrong chemicals could alter the quality and safety of the water, while ordering the wrong part for a pump could be detrimental to operations. LSI Pools knows exactly how to handle these potential situations and can keep your facility from potentially shutting down.
